

Paid Internships for Teachers

ROLE DESCRIPTION

Role Purpose

To increase the supply of potential trainee teachers in the shortage subjects of Mathematics and Physics by early classroom observation and involvement in the teaching profession.

Internship Overview

Interns will engage in school-based work experience for four weeks. Based at Exeter Mathematics School, they will receive training in professional studies and support with the next steps in applying to become teachers. As part of their work experience, interns will, over three weeks in partner schools, observing teaching, supporting students and making an active contribution to the broader life of their placement schools.

Interns will be mentored by a member of EMS teaching staff and will receive support from a Subject Champion in their placement schools. They will have the opportunity to plan and deliver teaching and will create and deliver an enrichment workshop for groups of students.
